Summary

My name is Damon Rocha and I am a tenacious programmer. I started coding C++ in college. I must have liked it or something because I then changed my degree plan to computer science, and on completion of my degree, I decided to go to a Flatiron to hone my craft. I am now experienced in Ruby on Rails and JavaScript-based programming with a background in C++ and Python. Due to the amount of math, I took in college I have a detailed Math, Calculus, and Physics background centered around electronics and science. And to wrap it all up I possess strong skills in team-building and project management that I gained in working with UPS and as a supervisor at Kohls.

Experience

Developer
Vanguard
Nov 2020 - Present (3 months +)
Open Account developer

Seasonal Package Loader
UPS
Jul 2018 - Mar 2019 (9 months)

Home and Kids Supervisor
Kohl's
Apr 2017 - Jul 2018 (1 year 4 months)

Education

Flatiron School
Computer Software Engineering
2020 - 2020
Online Software Engineering Bootcamp

Grayson College
Associate of Science- AS , Computer Science
2017 - 2019
○Put on Dean's list Summer 2017
Place on Presidents List for a GPA of 4.0 in the Fall of 2018
Awarded Outstanding Computer Science Student award spring of 2020
Finished three programming classes in C++ and a Computer Assembly course
Earned an A in a technical writing class, Calculus 3 and University Physics 1 & 2

3.53 GPA

Skills

Mathematics • Software Development • Python (Programming Language) • Computer Science •
JavaScript • Team Building • Project Management • Angular • Physics • Electrical Engineering
